

WHAT WE DO

Our environmentally responsible, end-to-end organic waste recycling process offers our customers a new revenue stream and a partner to support their corporate sustainability and operational efficiency goals. We increase sustainability, reduce your environmental impact, and improve your business's bottom line.

Animal feed from recycled organic byproduct

Crop nutrition from solid waste

Certified product destruction

THE PERFECT SYNERGY

- Intrinsic understanding, deep expertise, leadership, innovation, and experience
- Pre-consumer unused human and pet food plus de-packaging
- Strategic planning from implementation to compliance, and tracking
- Comprehensive services across all waste streams segments
 - Trusted compliance, chain of custody, high-level tracking and reporting
- Wholly-owned fleet of trucks and trailers locally, regionally, and partners nationally

CAPABILITIES

THOR T42 TURBO SEPARATOR

Certified product destruction that protects customers' brands while limiting liability.

ROTARY DRYER

Efficiently and safely repurposes wet byproducts into dry monogastric animal feed.

OPEN TOP TOTE CLEANING SYSTEM

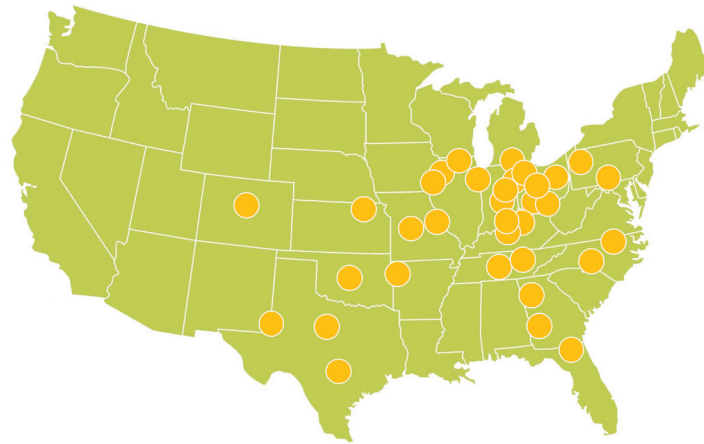

Cleans and contaminates totes from dirt and foodborne pathogens while cleaning and removing bacteria.

FEED LOAD OUT BINS

Weather-tight and engineered for safe, dry feed storage and loading.

SERVING CUSTOMERS ACROSS AMERICA

Situated within the heart of the Midwest, ShurGreen has immediate access to hundreds of local markets and the ability to scale with our customers. We combine our deep industry expertise with expansive facilities and a wholly owned fleet of trucks, dry vans, tankers, semi-trailers, roll-off lidded containers, and refrigerated trailers.

FOOD-to-FEED

WHY SHURGREEN

TOTAL LOGISTICS SERVICES

Wholly owned fleet of trucks and trailers locally, regionally, and partners nationally.

DEDICATED CUSTOMER SERVICE

From order receipt and processing, scheduling, logistics coordination, and tracking, to reporting.

COMPLIANCE

Materials are managed and processed under strict governmental requirements.

SAFETY IS JOB #1

To our customers, suppliers, visitors, employees, and community.

TRANSPARENCY

Being transparent in all we do is important to our clients and us.

INNOVATION

We are always looking for new ways to serve our customers.

SUSTAINABILITY

Reducing landfill waste through organic recycling reduces our ecological footprint.

BOTTOM LINE

Organic recycling is best for your business and the bottom line.

CERTIFIED PRODUCT DESTRUCTION

That protects your brand while limiting corporate liability.
